

## EDITORIAL

E. Brentari

With this issue, I officially take over as Editor-in-Chief of *Statistica & Applicazioni*. I would like to personally thank the Scientific Committee for the trust accorded to me. Replacing the previous Editor Aride Mazzali, who has worked passionately for the journal since its birth, will not be easy. The new agreement with the Publisher, *Vita e Pensiero*, will allow to browse all issues on line for free, in addition to the usual printed form. This is a first step to make the journal more known, up-to-date and searched. We hope to take other steps shortly. Thanks to all who wish to collaborate to make *Statistica & Applicazioni* grow among the statistical journals.
