

EDITORIAL

E. Brentari

This issue of *Statistica & Applicazioni* contains the English translation of the second paper by Gaetano Pietra originally published in 1915. The reasons of this translation were well explained by Michele Zenga in the previous issue.

This editorial note gives us the opportunity to thank all the reviewers who have contributed to improve the quality of this journal during the period 2010-2013; the quality of the publication heavily depends on their accurate work.
